Engineering Leader with 11+ years of experience in Test Automation, DevOps QA Platforms, and Performance Engineering, specializing in **Government Digital Platforms** and **FinTech Systems** within Saudi Arabia.

KEY ACHIEVEMENTS & IMPACT

- Reduced end-to-end regression execution time by **93%** through parallel automation strategy.
- Expanded automation test coverage from **35%** to **85%** across enterprise platforms.
- Cut flaky test failures by **70%**, stabilizing CI pipelines.
- Delivered **4x** increase in automation throughput.
- Accelerated CI/CD pipelines by **65–70%** using optimized runners and containers.
- Sustained **98%** CI/CD pipeline success rate across multiple programs.
- Optimized compute infrastructure usage by **25–30%**, lowering cloud costs.
- Improved **P95 latency by 35%** and **P99 latency by 22%** in production systems.
- Enabled **3x** increase in platform load-handling capacity.
- Achieved **50%** faster Mean Time to Detect (MTTD) incidents.
- Achieved **30%** faster Mean Time to Recover (MTTR).
- Reduced performance-related production issues by **40–50%**.
- Improved vendor delivery efficiency by **30%** via engineering governance.
- Delivered organization-wide productivity gains of **20–30%**.
- Standardized automation best practices across **3–5 enterprise teams**.
- Built reusable framework components reducing engineering rework by **40%**.
- Automated enterprise reporting pipelines with **100%** automated quality insights.
- Scaled performance test capacity to support **3x** peak national traffic events.

PROFESSIONAL EXPERIENCE

Confidential Government – Riyadh, Saudi Arabia

DevOps / QA Platform Lead (Apr 2025 – Present)

Automation Test Lead (May 2023 – Apr 2025)

UXBERT Labs – Riyadh, Saudi Arabia | May 2020 – Oct 2022

- **Quality Assurance Specialist** – Led QA for SFA with Ministry of Sports.
- **QA Mobile Automation Engineer** – iOS & Android automation.
- **QA (CI/CD Integration)** – Developed GitLab CI test pipelines.
- **Cyber Security Engineer and QA** – Security validation for releases.
- **Technical Event Supervisor** – QA & event operations.
- **Full-stack Developer** – React JS, .NET Core, SQL Server.

Software Specialist

Yusuf Bin Ahmed Kanoo Co. Ltd – Jizan, Saudi Arabia

Apr 2016 – Apr 2020

Quality Assurance Automation Engineer

Accenture – Bengaluru, India

Sep 2014 – Feb 2017

Delivered automation frameworks for **banking & fintech clients**.

EDUCATION

IU International University of Applied Sciences

Masters – Cloud & DevOps Management (2023–2025)

Anna University

Bachelor of Engineering – EEE (2010–2014)
